You will need to skip the adverts

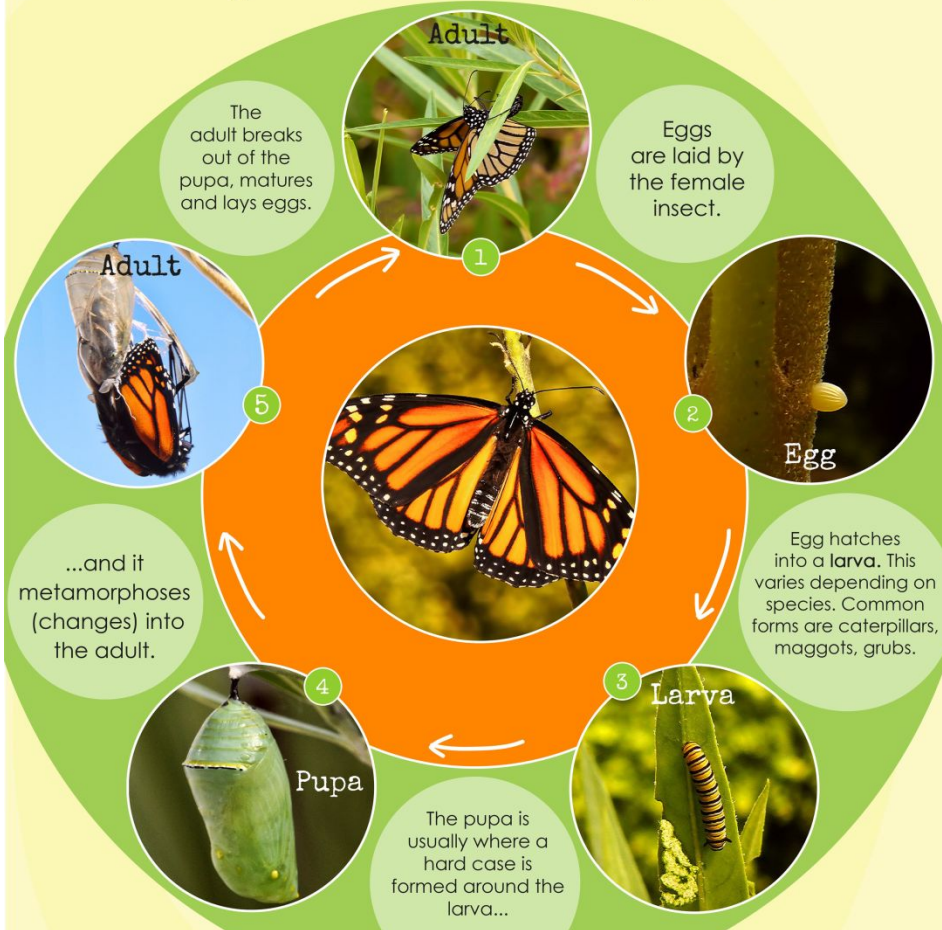

The clip from yesterday's lesson also showed examples of metamorphosis, if you want to watch this again.

This shows the metamorphosis of a frog and I included it just because I found it fascinating!

Examples...

# The Insect LIFE CYCLE Complete Metamorphosis

## Other Insects that Complete Metamorphosis

Ladybird

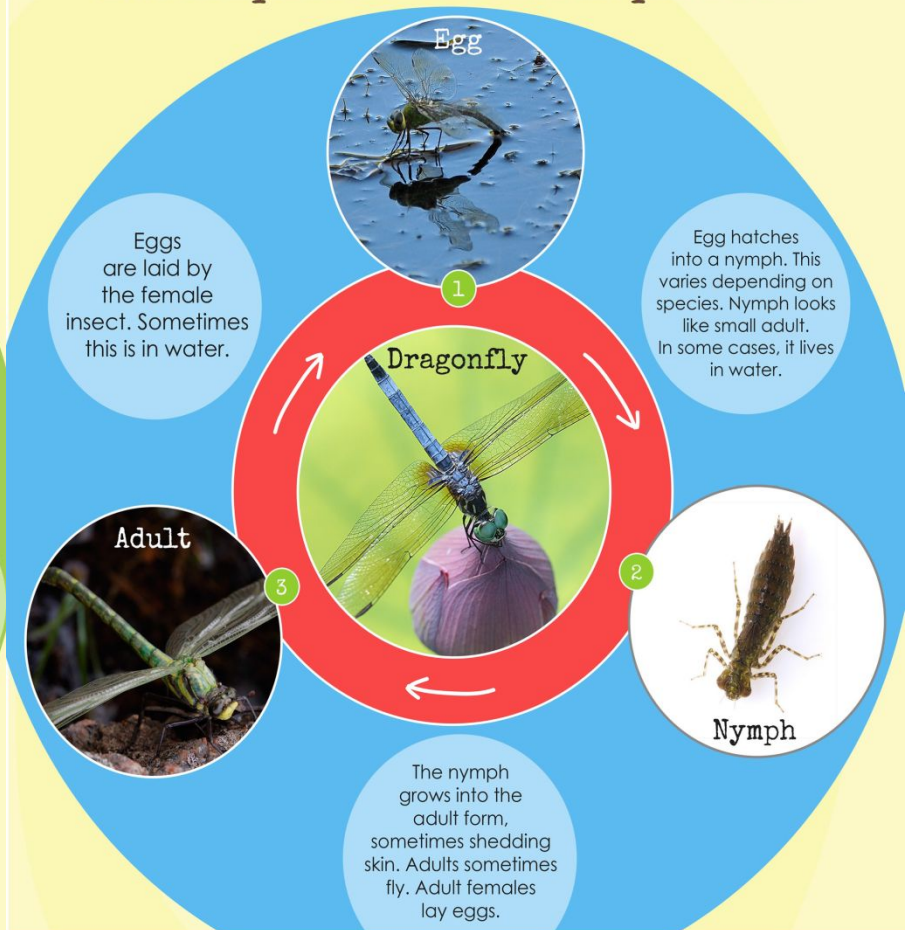

Fly

Beetle

# The Insect LIFE CYCLE Incomplete Metamorphosis

## Other Insects that Undergo Incomplete Metamorphosis

Cockroach

Aphid

Grasshopper

# What is metamorphosis?

## Activity

Tell us about **metamorphosis**. You could do this in lots of different ways.

For example, you could create a poster, a Powerpoint, you could film yourself pretending to go through each stage with an explanation of metamorphosis at the end (for example, pretend to be a caterpillar and then a creature that doesn't completely change). You could even record a voice over to explain it in the style of David Attenborough!
