Good morning year 5!

Happy birthday Emily in Kestrels! 🎂

Can you remember any of the OS map symbols from your topic work yesterday? Quick quiz- here are 5!

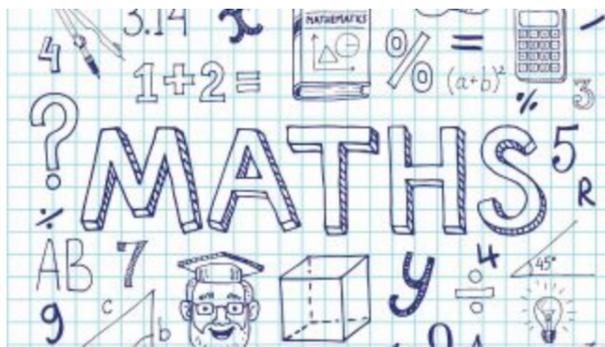

Sch FB

Your English work today may stir up some memories for you. Do you remember the first time you swam underwater? The fear and excitement about what was underneath the surface of the water or how it would feel? You may also feel this way when trying new things- scared yet excited. We sometimes call it 'fear of the unknown'. Do you remember ever feeling this way? Were you able to show courage and 'dive in' to the new experience? When we are brave enough to try new things, it can lead to wonderful things and we should try to remember this.

Why not try something new today? Mrs Maslin is trying to get her daughter to try lettuce for the first time- she has explained that she may love it but so far, she has not been keen to try it! Ha! :)

Have a lovely day everyone.

Mr Donovan, Mrs Barber and Mrs Maslin.

Maths:

Watch the video (lesson 2) and complete the worksheet. The worksheet has been uploaded as a separate document.

You could either print off the sheet if you can, or answer the questions in your learning journal.

Answers: <https://corbettmathsprimary.com/wp-content/uploads/2018/08/Ans-Sil-May-19.pdf>

English- Creative writing

Continue the story:

The young pup peered down into the icy water below with a growing feeling of trepidation. Only a few days old, she had learnt so much already from watching her mother, but this challenge was her greatest so far.

How would it feel to be submerged? What would she find lurking underneath the surface? How would ever she get back onto dry land?

Questions flooded her mind like a torrent of icy water, but bravely she inched closer to the edge...

Or use your imagination to answer some of the questions below.

Perfect picture!

If you are feeling like you want to draw, why not imagine that you have dived down into the water. Can you draw or paint what you might be able to see?

Where is the pup's mother? How old is the pup?

What might she have learnt already from her mother?

Do you remember learning to swim? What were the biggest challenges you had to overcome?

Will the pup be brave enough to enter the water?

How do you think it would feel to swim in that water?

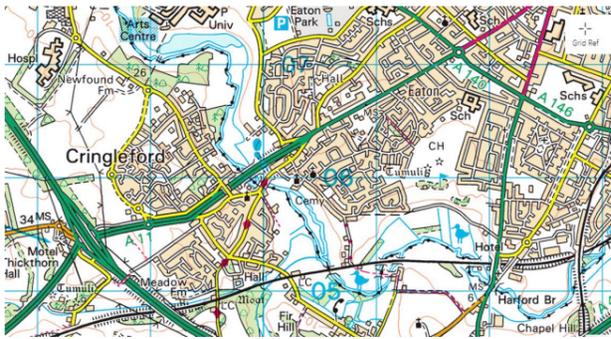

Would you be able to do it?

P.E.

Choose one of these activities to make sure you get some exercise today:

- Joe Wicks' Daily Workout 9.00am YouTube
- Select a Cosmic Yoga workout on Youtube
- For all Strictly Fans - choose one of Oti's dance classes on Youtube https://www.youtube.com/channel/UC58aowNEXHHnflR_5YTtP4g
- Go for a run, scooter, walk or bike ride with your family

Geography- Using grid references

Imagine that you are out exploring the countryside with your OS map and a parent. The parent falls and hurts their ankle. They cannot walk. You need to call for help. Grid references help people locate your exact position in an emergency, therefore are a very useful thing to learn. This is what we will be working on today :)

Work through the slides in today's Powerpoint.

Watch the videos on how to read grid references and have a go at answering the questions using the map. You may even be able to locate where you live!
